

Environmentally Preferred Product (EPP) List for Zero Waste Events

The following information is intended to be a guide for identifying compostable alternatives to petroleum based plastic, but is not meant to limit our recommended products to only those shown below. For more detailed information about which products are certified compostable please refer to the Biodegradable Plastics Institute (BPI) website listed below, and direct any further questions to UC Berkeley Cal Zero Waste at (510)-643-4612.
