

FIRE TRAIL MAINTENANCE UNDERWAY

Jordan Fire Trail Improvement Project

Upper Jordan Fire Trail to be **closed** 8:00 am – 4:00 pm

Monday, September 9th through Friday, October 25th

Trail closure not in affect during non-operational hours

Structural and erosion control measures will be performed on the fire trail over the next two years. This year work will begin on the upper section (Mile Post 11 to Mile Post 32, as marked in yellow below), with work on the lower section scheduled for 2025. Work includes: culvert maintenance, ditch creation / clearing, storm water engineering and soil management. The work will result in a more structurally sound, erosion-resistant fire trail. For more information contact UCB Facilities Services at www.facilities.berkeley.edu or (510) 642-1032.
